

APRIL 2016

# WATER SUPPLY UPDATE

**THE BUREAU OF RECLAMATION BRINGS UNCONTROLLED SEASON TO AN END.**

## WHAT YOU NEED TO KNOW

- The Bureau of Reclamation Declares 40% Class 1 allocation to Friant Contractors.
- On Tuesday April 12 2016 SSJMUD will begin prorating its growers.
- Prorate is 0.9 acre feet per acre.

The Bureau of Reclamation continues to monitor and evaluate Friant's water supply on a weekly basis as our water supply continues to develop. Reclamation may continue to adjust Friant's declaration as new data is made available each week. We continue to keep our fingers crossed and hope this is just the beginnings of a great water season.

**The March 2016 Billing is available online. Original invoices will go out in today's mail.**

If you haven't already, please visit our Customer Information Portal at [ssjmud.org](http://ssjmud.org). You can check your usage, account balances, current bills, place orders and access other information regarding SSJMUD. If you do not have an account setup, please go to "My Account" to create one. Your request will be reviewed by staff for approval. If you need assistance, or have any questions, please contact us at (661) 725-0610.
